BIOTABS
PRODUCT SHEET

Slow release organic fertiliser tablets NPK: 12-8-8 (21 g tablets)

Available in packages of 10, 100 or 400 tablets.

BioTabs are slow releasing organic fertiliser tablets for annual plants. No more danger of under or over dosing, your plants will receive exactly the correct amount organic fertiliser, every time. There is no need to adjust the pH or EC when using BioTabs. BioTabs make your life easy. Organic cultivation becomes child's play for beginners and advanced growers alike, all you need to do, is water your plants.

BioTabs contain everything your plants need to keep them deep green throughout the entire cycle. Even very long-blooming plants will remain deep green throughout the full cycle. BioTabs effortlessly feeds your plants during their growing and flowering cycle. The result is, healthy plants that will grow and bloom exuberantly. BioTabs organic fertiliser tablets contain all the important minerals, with the right combination of nitrogen-binding and phosphate-dissolving bacteria, with other essential organic substances, for the healthy growth, of potted plants.

The tablets contain a formula of slow-acting nitrogen, natural humic acids and beneficial soil bacteria. These improve the soils condition and contribute to a good uptake of the fertilisers, resulting in a uniformly healthy growth, without leaching of the fertilisers. The
