BOOM BOOM SPRAY
PRODUCT SHEET

Boom Boom Spray is an organic plant biostimulant and the most effective booster for the vegetative stage. It is 100% vegan and contains natural peptides, amino acids, and organic nitrogen.

Available in 20ml, 100ml and 250ml bottles.

Boom Boom Spray is an organic biostimulant that enhances crop health and increases resilience. It is an ideal product for organic farming, as it incorporates 100% high quality plant ingredients. In addition, thanks to its hydrolysed protein base, it provides highly effective plant peptides for foliar application.

This product exerts a strong anti-stress action against challenging climatic conditions such as extreme drought or cold. It improves nutrient uptake by the plant, resulting in higher productivity and yield. This effect is due to the presence of numerous biologically active substances that improve photosynthesis and the overall physiology of the plant.

The biostimulant effect of Boom Boom Spray is complemented by its ease application and rapid absorption through the leaves, which allows for visible results within a few hours. It is a very versatile and effective product that can be used in any fertilisation programme, whether biological, biomineral or chemical (a preliminary compatibility test is recommended).

BIO TABS.NL ORGANIC GROWING

Product benefits

· Improves photosynthesis.
· Improves plant growth and development.
· Exerts a strong anti-stress action against difficult climatic situations.
· Promotes nutrient absorption by the plant.

Guaranteed analysis

Organic nitrogen (N)	5%
Organic carbon (C)	19%
Vegetal peptides	19%
pH	4

Directions

To be used as a 100% organic biostimulant, nitrogen booster and anti-stress agent for vegetables, flowers, herbs, trees, and shrubs.

Dosage per plant

Indoor and outdoor

· ***Foliar application:*** Dissolve 5ml of Boom Boom Spray in 1L of water. Spray on the plant leaves until dripping wet.
· ***Mother plants:*** Dilute 5ml of Boom Boom Spray in 1L of water and spray the plants every two weeks.
· ***Cuttings:*** Dilute 5ml of Boom Boom Spray in 1L of water and spray the cuttings two days after they are rooted.
· ***Re-potting:*** Dilute 5ml of Boom Boom Spray in 1L of water and spray the plants immediately after they were replanted.

BIO TABS.NL ORGANIC GROWING

· ***Stressed plants:*** Dilute 5ml of Boom Boom Spray in 1L of water and spray the plants once. If necessary, repeat once more after 5 days.

Full ground

Foliar application: 3-5 L/ha every 2-3 weeks. Spray the plants early in the morning.

* More detailed information in our Organic Grow Guide: www.biotabs.nl

Cautions and storage conditions

· Store in a cool and dry place.
· Not suitable for human consumption.
· Keep out of reach of children and animals.
· Dispose of used containers in accordance with local regulations.
· The solution should be used within 6 hours and the plant sprayer should be rinsed thoroughly after use.

Important note

This is a natural product, the visual aspect may vary. However this does not impact the quality of the product.

Product suitable for use in Organic Farming
in accordance with EC Regulations (EU)
Nº 2018/848 and 2021/1165.
Control by Ecocert F-32600.
