ORGATREX
PRODUCT SHEET

Liquid organic fertiliser N-P-K: 1.6-0-4.2 with natural sugars and trace elements.

Available in 250 ml, 1 L and 5 L containers.

Orgatrex is a highly effective organic fertiliser made from 100% plant-based raw materials. It stands out for its high content of natural sugars and micronutrients. This meticulously crafted composition not only supports a thriving soil ecosystem, but also promotes robust and stable plant growth.

The abundant natural sugars in Orgatrex play a dual role: they nourish soil microorganisms to foster active soil life and provide plant organic matter that eventually transforms into nutrients for plants.

The high amount of micronutrients highlights its importance for stable plant growth. These trace elements play a fundamental role in maintaining the overall health of plants. In addition, their presence ensures a rich soil, which means optimal plant development.

Product benefits

· Ensures stable plant growth.
· Provides a compact root system.
· Improves plant tolerance to biotic and abiotic stress.
· Promotes a healthy soil micro life.
· It is a natural product without harmful chemical additives.

· Progressive improvement of soil properties such as structure, porosity, moisture retention, etc.
· High-quality raw materials with valid Organic Certification.

Guaranteed analysis

Total nitrogen (N)	1.6%
Total phosphorus (P2O5)	0%
Total potassium (K2O)	4.2%
Organic matter	45%
Total sugars	55.3%
pH	5.5

Directions for use
To be used as a liquid organic fertiliser for vegetables, flowers, herbs, trees and shrubs.

Dosage per plant
Indoor and outdoor (pots)
Pre-grow pot: Dissolve 5 ml of Orgatrex in 1 L of water. Water all the seedlings of the pre-grow pots with this solution.
First watering of the final pot: Dissolve 10 ml of Orgatrex in 1 L of water. Water each plant with 1 L of this solution.
Week 3 of flowering: Dissolve 20 ml of Orgatrex in 1 L of water. Water each plant with 1 L of this solution only once. The rest of the week just irrigate with plain water if needed.

BIO TABS.NL ORGANIC GROWING

Outdoor cultivation (in the ground)
Dissolve 5-10 L per hectare every 2-3 weeks.
* More detailed information in our Organic Growing Chart: www.biotabs.nl.

Cautions and storage conditions
· Store in a cool and dry place.
· Not suitable for human consumption.
· Keep out of reach of children and animals.
· Dispose of used containers in accordance with current local regulations.

Important note
*To boost results, combine Orgatrex with beneficial soil microorganisms and mycorrhizal fungi, such as Bactrex and Mycotrex.

Product suitable for use in Organic Farming
in accordance with Regulations (EU)
No. 2018/848 and 2021/1165.
Control Ecocert F-32600.
